## "Read to a Child" Program @ Woodrow Wilson School

It is my pleasure to write this letter of commendation on behalf of the "Read to a Child" program here at Woodrow Wilson Elementary School. Currently, the program is servicing 58 students with 50 mentors. That is an incredible effort for our school. Students are always eager to go with their mentors during their lunch and it is evident that the mentors have taken a genuine interest in our students. Woodrow Wilson has the highest population of free and reduced lunch, and the highest English Language Learner population in the district.

Mentors for our students are often difficult to find, but this program has provided this service to our students consistently over the past few years. I would like to personally thank Linda Winin for her leadership and Andy Costello for her work in organizing the volunteers and the locations for this program to take place in our school.

Sincerely,

Mr. John Haidemenos, Jr.,  
Principal
